

SUBJECT/AUTHOR INDEX

	Report No.		Report No.
<b>A</b>			
Acid secretion		bromoergocryptine	
gastric mucosa of <i>Squalus acanthias</i>		effect in <i>Anguilla</i> (eel) gill	12
(dogfish)	22, 27	Bryan-Brown, Adrian	25, 26
		<b>C</b>	
Adaptation		calcium	
amino acids in <i>Raja</i> (skate)	20	aqueous humor	44
ATPase of gill	12	asparagine synthetase	5
Chloride cells	8	polar lobe formation	3
endocrine response	34	renal excretion by elasmobranchs	34, 42
solute excretion by <i>Squalus acanthias</i>		<i>Cancer</i> ittorus (rock crab)	
(dogfish)	7, 34	epoxide metabolism	23
to dilute sea water by <i>Squalus acanthias</i>		carbon dioxide	
(dogfish)	7, 34	gastric mucosa	27
to dilute sea water by <i>Raja</i> (skate)	20	<i>Carex</i> paleacea	
to fresh water by <i>Anguilla</i> (eel)	8, 12	primary production and substrate	
Amino acids		properties	39
intestinal absorption, effect of DDT	32	cell culture	
tissue of <i>Raja</i> (skate)	20	murine lymphoblasts	24
Anandaraj, M.P.J.S.	24	central nervous system	
Anderson, J.	21	brain transport, <i>Squalus acanthias</i>	
angiotensin		(dogfish)	13
response by <i>Squalus acanthias</i>		spinal cord regeneration, <i>Myxine</i>	
(dogfish)	35	(hagfish)	33
<i>Anguilla</i> rostrata (eel)		cerebrospinal fluid	
adaptation to fresh water	8, 12	<i>Squalus acanthias</i> (dogfish)	13
chloride cells	8	Cha, Chung-Ja	20
gill ATPase	12	chloride	
methylmercury	40	intestinal transport	14
selenium	40	chloride cells	
antineoplastic agents		<i>Anguilla</i> (eel)	8
pharmacokinetic studies in <i>Squalus</i>		<i>Squalus acanthias</i> (dogfish)	9
acanthias (dogfish)	21	choriocapillaries, <i>Raja</i> (skate)	43
aqueous humor		choroid, <i>Raja</i> (skate)	43
calcium content, fishes	44	Churchill, Monique	1
Arine, Emel	36	Churchill, Paul C.	1
asparagine		circulation	
orotic acid as precursor	4	angiotensin, effect in <i>Squalus acanthias</i>	
synthetase inhibition	5	(dogfish)	35
asparagine synthetase		<i>Boltenia ovifera</i> (sea potatoe)	2
ATPase		cardiac output in <i>Squalus acanthias</i>	
gill of <i>Anguilla</i> (eel)	12	(dogfish)	25
intestine of <i>Fundulus</i>	32	response to hypoxia by <i>Squalus</i>	
<b>B</b>		acanthias (dogfish)	26
Bend, John R.	23, 37	cleavage furrow	
bladder		length-tension relationships	38
structure in <i>Raja erinacea</i> (skate)	31	Cleeman, Lars	2
blood pressure		cloaca	
effects of angiotensin	35	structure in <i>Raja erinacea</i> (skate)	31
<i>Squalus acanthias</i>	1, 35	cod fish ( <i>Gadus callarias</i> )	
Bogar, Anne	7	cornea	17
<i>Boltenia ovifera</i> (sea potatoe)		collecting duct in <i>Raja</i> (skate)	42
heart	2	communities, plant	19
Bono, V. H.	24	Conrad, Gary W.	3
Boyd, Thomas A.	20	Cooney, D. A.	4, 5, 24
brain		copper	
transport rates in <i>Squalus acanthias</i>		asparagine synthetase	5
(dogfish)	13	cornea	
Briley, Pat	21	calcium content	44

	Report No.		Report No.
electrical and hydrophilic properties	17	oxygen consumption	26
corticosteroids		rectal gland	10, 16, 41
<i>Squalus acanthias</i> (dogfish)	1, 34	solute excretion	7, 34
crab ( <i>Cancer</i> )		testosterone	34
epoxide metabolism	23	Doyle, William L.	8, 9, 10
Crawford, Richard B.	6	drug distribution	
cyclic AMP		<i>Squalus acanthias</i> (dogfish)	21
intestinal mucosa of <i>Pseudopleuronectes</i>		Dubyak, George R.	11, 28, 29
(Flounder)	14		
polar lobe formation	3	<b>E</b>	
rectal gland secretion	41	<i>Echinarachnius parma</i> (sand dollar)	
cytochrome		cleavage furrow	38
hepatic microsomes, <i>Raja</i> (skate)	36	eel ( <i>Anguilla</i> )	
cytotoxicity		adaptation to fresh water	8, 12
plasma of <i>Squalus acanthias</i>		ATP-ase	12
(dogfish)	24	chloride cell	8
<b>D</b>		gills	8, 12
Danovitch, Gabriel M.	7	methylmercury	40
DDT		selenium	40
effect on nutrient absorption	32	Eichenholz, P.	13
Dedrick, R.	21	Eid, Jean Francois	25, 26
desoxycorticosterone acetate effect on		embryo	
<i>Squalus acanthias</i> (dogfish)	1	xenobiotics, effects on <i>Fundulus</i>	
development		(killifish)	6
cleavage furrow	38	Englosh, Barbara	21
polar lobe formation	3	environmental dilution	
xenobiotics, effects in <i>Fundulus</i>		<i>Anguilla</i> (eel)	8, 12
(killifish)	6	<i>Raja</i> (skate)	20
differentiation		<i>Squalus acanthias</i> (dogfish)	7, 34
xenobiotic, effects in <i>Fundulus</i>		ependyma	
(killifish)	6	permeability constants	13
diffusion		epoxide metabolism	23
brain	13	Epstein, Ann	12
dilute environment		Epstein, Franklin H.	12, 41
<i>Anguilla</i> (eel)	8, 12	Epstein, Sara	12
<i>Raja</i> (skate)	20	erythrocytes	
<i>Squalus acanthias</i> (dogfish)	7, 34	amino acids	20
Dion, R. L.	24	excretory duct	
DNA		rectal gland	10
murine lymphoblasts	24	extraocular muscles	
DOCA		calcium content	44
effects on <i>Squalus acanthias</i>		eye	
(dogfish)	1	blood-retina barrier	43
dogfish ( <i>Squalus acanthias</i> )		calcium content	44
angiotensin, effect of	35	cornea	17
antineoplastic agents	21	<b>F</b>	
asparagine synthesis	4, 5	Fenstermacher, Joseph D.	13
brain	13	Fenstermacher, Paul	21
cardiac output	26	Field, Michael	14, 41
chloride cell	9	Fine, Leon G.	15, 16
cornea	17	Fischer, Frank H.	17
cytotoxicity of plasma	24	flounder ( <i>Pseudopleuronectes</i> )	
desoxycorticosterone acetate (DOCA),		chloride transport, intestine	14
effect of	1	epoxide metabolism	23
dilute sea water	7, 34	hepatic microsomes	37
endocrine response	34	kidney	11, 15, 28, 29
eye	17, 44	magnesium secretion	15
gastric mucosa	22, 27	methylmercury	40
gill	9	selenium	40
hypoxia, response to	25	sugar transport, renal tubules	11, 28, 29
osmoregulation	7, 34	Forrest, John	41

Forster, Roy P. ....	20
Fouts, James R. ....	23, 37
Franki, Nicholas ....	7
frog ( <i>Rana catesbeiana</i> )	
calcium content of ocular tissues .....	44
<i>Fundulus heteroclitus</i> (Killifish)	
amino acid absorption, effect of DDT ...	32
calcium content of ocular tissues .....	44
methylmercury and selenium .....	40
xenobiotics, effect on development .....	6
<b>G</b>	
<i>Gadus callarias</i> (cod fish)	
cornea .....	17
galactose	
renal tubule transport .....	28
Galaske, R. G. ....	18, 30, 42
Gallagher, John L. ....	19, 39
gastric mucosa	
acid secretion .....	22, 27
gill	
<i>Anguilla</i> (eel) .....	8, 12
ATP-ase .....	12
<i>Fundulus</i> (Killifish) .....	40
methylmercury .....	40
resistance, <i>Squalus acanthias</i> (dogfish) .....	9, 25
glucose	
renal tubule transport .....	29
Goldman, Yale .....	2
Goldstein, Leon .....	20
goosefish ( <i>Lophius</i> )	
kidney .....	18
proteins .....	18
Guarino, A. M. ....	4, 5, 6, 21, 24
Guarino, E. ....	13

**H**

hagfish ( <i>Myxine</i> )	
spinal cord .....	33
Hays, John A. ....	15
Hays, Laurie .....	7
Hays, Richard M. ....	7, 16
heart	
amino acid content .....	20
<i>Boltenia ovifera</i> .....	2
length-tension relationships .....	2
<i>Raja</i> (skate) .....	20
<i>Squalus acanthias</i> (dogfish) .....	25, 26
<i>Hemirhamphus americanus</i> (King of Norway)	
epoxide metabolism .....	23
hepatic microsomes	
cytochromes .....	36
oxidases .....	37
<i>Pseudopleuronectes</i> (flounder) .....	37
<i>Raja</i> (skate) .....	36, 37
hepatopancreas	
epoxide metabolism .....	23
hexoses	
renal tubule transport .....	11, 28, 29
Hogben, C. Adrian M. ....	22
Holcombe, R.	

<i>Homarus americanus</i> (Lobster)	
epoxide metabolism .....	23
horseradish peroxidase	
blood-xetina barrier .....	43
hydrogen ion	
gastric secretion .....	22, 27
hyperbaric condition	
acid-secretion by gastric mucosa .....	27
hypoxia	
response by <i>Squalus acanthias</i> (dogfish) .....	25

**I**

<i>Ilyanassa obsoleta</i> (mudsnail)	
polar lobe formation .....	3
intestine	
ATP-ase .....	32
chloride transport .....	14
cyclic AMP .....	14
DDT .....	32
<i>Fundulus</i> (Killifish) .....	32
<i>Pseudopleuronectes</i> (flounder) .....	14
ionophore	
polar lobe formation .....	3
iris	
calcium content .....	44

**J**

James, Margaret O. ....	23
Jayaram, H. N. ....	4, 24
Jones, M. ....	5
<i>Juncus gerard</i>	
metabolism .....	19, 39

**K**

Kent, Barbara .....	25, 26
Kidder, George W., III .....	27
Kidney	
desoxycorticosterone acetate, effect of ..	1
electrolyte excretion .....	1, 7, 34, 42
<i>Lophius</i> (goosefish) .....	18
magnesium secretion .....	15, 34
methylmercury .....	40
micropuncture studies <i>Raja</i> (skate) .....	42
nephrectomy .....	15
protein excretion, <i>Lophius</i> (goosefish) ..	18
<i>Pseudopleuronectes</i> (flounder) .....	11, 15, 28, 29
<i>Raja</i> (skate) .....	30, 42
solute excretion .....	1, 7, 34
<i>Squalus acanthias</i> .....	1, 7, 34
sugar transport .....	11, 28, 29
Killifish ( <i>Fundulus</i> )	
amino acid absorption, effect of DDT ...	32
calcium content of ocular tissues .....	44
methylmercury and selenium .....	40
xenobiotics, effect on development .....	6
King of Norway ( <i>Hemirhamphus</i> )	
epoxide metabolism .....	23
Kinter, M. ....	21
Kinter, William B. ....	32
Kleinzeller, Arnost .....	11, 28, 29
Kraus, Kathy .....	34

## L

Lacy, Eric R. ....	30, 31
lanthanum	
polar lobe formation .....	3
Lechene, Claude .....	42
length-tension relationship	
cleavage furrow .....	38
myocardium, <i>Boltenia</i> (sea potatoe) ....	2
Leroy, A. ....	21
liver	
methylmercury .....	40
microsomes .....	36, 37
<i>Pseudopleuronectes</i> (flounder) .....	37
<i>Raja</i> (skate) .....	36, 37
lobster ( <i>Homarus</i> )	
epoxide metabolism .....	23
<i>Lophius americanus</i> (goosefish)	
kidney .....	18
proteins .....	18
lymphoblasts	
cytotoxicity of plasma of <i>Squalus</i> (dogfish) .....	24
<b>M</b>	
magalocytic response	
murine lymphoblasts .....	24
magnesium	
asparagine synthetase .....	5
<i>Pseudopleuronectes</i> (flounder) .....	15
<i>Raja</i> (skate) .....	41
renal excretion .....	15, 34, 42
<i>Squalus acanthias</i> (dogfish) .....	
Malvin, Lori .....	1
Malvin, Richard L. ....	1
Maren, Thomas H. ....	31
Mayers, Douglas L. ....	2
McElroy, Anne E. ....	20
methylmercury	
selenium .....	40
tissue concentrations .....	40
microsomes, hepatic .....	36, 37
Miller, D. S. ....	32
Milman, H. A. ....	4, 5
mineralocorticoids	
<i>Squalus acanthias</i> (dogfish) .....	1, 34
Morad, Martin .....	2
morphogenesis	
effect of xenobiotics .....	6
mudsnail ( <i>Ilyanassa</i> )	
polar lobe formation .....	3
Mullin, James F. ....	11, 28, 29
Murdaugh, Anne W. ....	34
Murdaugh, H. V. ....	34
Murray, Marion .....	33
muscle	
methylmercury .....	40
myocardium, <i>Boltenia</i> (sea potatoe) ....	2
Myers, Jack D. ....	34
myocardium	
<i>Boltenia</i> (sea potatoe) .....	2
length-tension relationship .....	2

*Myoxocephalus*

calcium content of eyes .....	44
cornea .....	17
octodecemspinosus .....	17, 44
scorpius .....	17, 44
<i>Myxine glutinosa</i> (hagfish)	
Spinal cord regeneration .....	33

## N

<i>Nassarius obsoletus</i> (mudsnail)	
polar lobe formation .....	3
nephrectomy	
<i>Pseudopleuronectes</i> (flounder) .....	15

## O

Opdyke, D. F. ....	35
optic nerve	
calcium content .....	44
organic carbon	
marsh plants .....	19
orotic acid	
asparagine synthesis .....	4
osmoregulation	
adaptation to dilute sea water .....	7, 20, 34
adaptation to fresh water .....	8, 12
amino acids .....	20
<i>Anguilla</i> (eel) .....	8, 12
Chloride cell .....	8
DDT .....	32
endocrine response .....	34
<i>Raja</i> (skate) .....	20
solute excretion .....	7, 34
<i>Squalus acanthias</i> (dogfish) .....	7, 34
ovabain	
rectal gland secretion .....	41
Owens, A. ....	21
Owens, E. ....	13
oxidases	
hepatic microsomes, <i>Raja</i> (skate) .....	37
oxygen	
consumption and cardiac output .....	26
gastric mucosa acid secretion .....	27

## P

Pakstis, Gail L. ....	3
para-aminohippurate	
renal secretion, <i>Pseudopleuronectes</i> (flounder) .....	15
Peirce, E. Converse, II .....	25, 26
Peret, Diane G. ....	23
pesticide	
effect on morphogenesis .....	6
Pfeiffer, William J. ....	19
pharmacokinetics	
antineoplastic agents, <i>Squalus acanthias</i> (dogfish) .....	21
Philpot, Richard M. ....	36
phloretin and phlorizin	
renal tubule sugar transport .....	11
phosphorus	
renal excretion, <i>Raja</i> (skate) .....	42

	Report No.		Report No.
photoreceptors		<i>Pseudopleuronectes</i> (flounder)	11, 15, 28, 29
eye, <i>Raja</i> (skate)	42	<i>Raja</i> (skate)	42
plant metabolism	19, 39	sugar transport	11, 28, 19
Pohl, Roberta J.	23, 37	Resnick, Robert	1
Polar lobe formation	3	respiration	19
pollutants		marsh plants	19
methylmercury and selenium	40	retina	43
pressure		blood-retina barrier	44
hyperbaric effect on gastric mucosa	27	calcium content	21
primary production		Rittmaster, R.	23
marsh plants	39	rock crab ( <i>Cancer ittorus</i> )	23
prolactin		epoxide metabolism	39
<i>Anguilla</i> (eel)	12	roots	39
proteins		marsh plants	39
<i>Lophius</i> (goosefish)	18		
renal excretion	18	<b>S</b>	
<i>Pseudopleuronectes americanus</i> (flounder)		salt marsh plants	19, 39
chloride transport intestine	14	saprophages	19
epoxide metabolism	23	Schmidt-Nielsen, Bodil	30, 31, 40, 42
hepatic microsomes	37	sculpin ( <i>Myoxocephalus</i> )	44
kidney	11, 15, 28, 29	calcium content of ocular tissues	17
magnesium secretion	15	cornea	2
methylmercury	40	sea potatoe ( <i>Boltenia</i> )	2
selenium	40	heart	22, 27
sugar transport, renal tubules	11, 28, 29	secretion	15, 34
<b>R</b>		acid, gastric mucosa	16, 41
<i>Raja erinacea</i> (little skate)		magnesium, renal	40
adaptation to dilute sea water	20	rectal gland	32
amino acids	20	selenium	40
bladder	31	Seymour, A. S., Jr.	32
blood-retina barrier	43	Sheline, Jonathan	32
cytochromes	36	Shoemaker, D. G.	33
electrolyte excretion	42	Siegel, Abraham L.	12, 41
epoxide metabolism	23	Silva, Patricio	20
eye	43	skate ( <i>Raja</i> )	20
hepatic microsomes	36, 37	adaptation to dilute sea water	20
kidney	30	amino acids	4, 5
micropuncture studies	42	asparagine sythesis	31
osmoregulation	20	bladder	43
oxidases	37	blood-retina barrier	36
renal function	42	cytochromes	42
<i>Raja ocellata</i> (skate)		electrolyte excretion	23
asparagine synthesis	4, 5	epoxide metabolism	43
<i>Raja radiata</i> (thorny skate)		eye	36, 37
epoxide metabolism	23	hepatic microsomes	30
<i>Rana catesbeiana</i> (frog)		kidney	42
calcium content of ocular tissues	44	micropuncture studies	20
Rappaport, J.	13	osmoregulation	37
Rappaport, R.	38	oxidases	42
Rea, Vifran	34	renal function	14
Reagan, R. L.	24	Smith, Philip L.	14
rectal gland		sodium	12
cyclic AMP	41	<i>Anguilla</i> (eel)	14
ouabain	41	intestinal transport	10, 16, 41
secretion	16, 41	rectal gland	1, 7, 34, 42
ultrastructure	10	renal excretion	39
regeneration		soils analysis	19, 39
spinal cord, <i>Myxine</i> (hagfish)	33	<i>Spartina</i>	19, 39
Rehm effect	22	metabolism	33
Reimold, Robert J.	39	spinal cord	12
renal tubule		regeneration, <i>Myxine</i> (hagfish)	12
magnesium secretion	15	Spokes, Kate	

<i>Squalus acanthias</i> (dogfish)	
angiotensin, effect of	35
antineoplastic agents	21
asparagine synthesis	4, 5
brain	13
cardiac output	26
chloride cell	9
cornea	17
cytotoxicity of plasma	24
desoxycorticosterone acetate (DOCA), effect of	1
dilute sea water	7, 34
endocrine response	34
eye	17, 44
gastric mucosa	22, 27
gill	9
hypoxia, response to	25
oxygen consumption	26
rectal gland	10, 16, 41
solute excretion	7, 34
testosterone	34
steroids	
<i>Squalus acanthias</i> (dogfish)	1, 34
Stevens, Arthur	41
Stoff, Jeffrey	41
Stolte, Hilmar	30, 42
stomach	
acid secretion	22, 27
sugar	
renal tubule transport	11, 28, 29
sulfur	
renal excretion, <i>Raja</i> (skate)	42
Sutermeister, K.	13, 21
Swenson, Erik	31

## T

tapetum lucidum	43
testosterone	34
theophylline	
effect on rectal gland	41
thiocyanate	
effect on rectal gland	41
toxicity	
xenobiotics and morphogenesis	6
transport	
amino acid	20
central nervous system	13
chloride	14
DDT inhibition	32
hydrogen ion	22, 27
intestinal	14
renal tubule	11, 15, 28, 29, 42
sodium	12, 14, 42
sugar	11, 28, 29
tunicate	
heart	2

## U

ultrastructure	8, 9, 10, 30
urea	
renal excretion	1, 7, 34

urinary bladder	31
urine proteins	18
urogenital sinus	31

## V

vitreous humor	
calcium content	44

## W

Ward, J. M.	24
-------------	----
