

THE BULLETIN

Mount Desert Island Biological Laboratory

Volume 30
1991

BULLETIN EDITORIAL COMMITTEE

Editor Dr. Arnost Kleinzeller
Assistant Editor Constance Homer
Publication Assistant Mary Rush

Dr. Ian P. Callard

Dr. David C. Dawson

Dr. George W. Kidder

Dr. Rolf Kinne

Dr. Gregg Kormanik

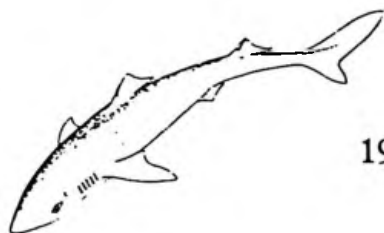

Dr. Thomas H. Maren

Dr. John D. Valentich

THE BULLETIN

Mount Desert Island
Biological Laboratory
Salsbury Cove
Maine 04672

Volume 30

1991

TABLE OF CONTENTS

Report Titles	i - iv
Reports	1 - 124
Officers & Trustees	125 - 127
Scientific Personnel	128 - 132
Seminars	133 - 135
Publications	136 - 138
Author Index	139
Keyword Index	140 - 141
Species Index	141

REPORT TITLES

Furrowing in conical sand dollar (<u>Echinarachnius parma</u>) eggs. R.Rappaport....	1
The role of microtubules in the formation and relaxation of contractile rings in <u>Ilyanassa obsoleta</u> . A.H.Conrad & G.W.Conrad.....	2
Effects of metal ion on corneal development in the eye of the clearnose skate (<u>Raja eglanteria</u>). G.W.Conrad & C.A.Luer.....	3
The ontogeny of mitochondria-rich cells in embryos of the spiny dogfish, <u>Squalus acanthias</u> . G.A.Kormanik, A.J.Lofton & D.E.Vibbard.....	4
Identification and localization of microtubule-associated proteins in sea urchin (<u>Strongylocentrotus droebachiensis</u>) coelomocytes. J.H.Henson & M.J.Smith.....	8
Interactions between cadmium ion and various hydrogen ion buffers. W.Germann, E.Kinne-Saffran & R.K.H.Kinne.....	12
Creatine and arginine phosphokinase are selectively inactivated by superoxide radical exposure: implications for reoxygenation injury. J.A.Dyken & J.Rogers.....	16
Cyanide-insensitive mitochondrial respiration in <u>Placopecten magellanicus</u> and <u>Mytilus edulis</u> : implications for reoxygenation injury. J.A.Dyken, S.Deel, A.Joseph & H.Freiburger.....	17
Skate (<u>Raja erinacea</u>) egg capsule proteins. T.J.Koob & D.L.Cox.....	21
Catechol oxidase in the little skate (<u>Raja erinacea</u>) egg capsule enzyme latency induced by an endogenous factor. J.W.Straus & D.L.Cox.....	23
The action spectrum for relief of carbon monoxide inhibition of respiration in the gastric mucosa of <u>Raja erinacea</u> . G.W.Kidder III & M.N.Puterbaugh.....	25
Metabolic fate of pyrovate depends on nutritional status in the sea anemone <u>Metridium senile</u> . W.E.Zamer.....	27
Glutamine metabolism in dogfish (<u>Squalus acanthias</u>) red muscle. M.E.Chamberlin.....	29
Regulation of DNA and protein synthesis in the dogfish (<u>Squalus acanthias</u>) testis. J.M.Redding & G.V.Callard.....	30
Search for carbonic anhydrase in fertilized and unfertilized sand dollar (<u>Echinarachnius parma</u>) eggs. A.Fine.....	33
Immunological studies on the sodium-D-glucose cotransporter in kidney brush border membranes from rabbit, winter flounder (<u>Pseudopleuronectes Americanus</u>), dogfish (<u>Squalus acanthias</u>), little skate (<u>Raja erinacea</u>) and toadfish (<u>Opsanus tau</u>). R.E.Shetlar, A.I.Morrison, C.Pfaff, E.Kinne-Saffran & R.K.H.Kinne.....	35

Effect of cadmium ions on partial reactions of the Na-K-ATPase in rectal gland plasma membranes of <u>Squalus acanthias</u> . E.Kinne-Saffran, C.Pfaff, P.S.Maska & R.K.H.Kinne.....	38
Cloning and partial sequencing of a putative G-protein coupled M4 muscarinic receptor from the dogfish shark (<u>Squalus acanthias</u>) using nested PCR. J.N.Forrest Jr., P.Schofield & S.Jones.....	41
SH-groups are essential for uptake of bile acids in hepatocytes of the little skate (<u>Raja erinacea</u>). M.Blumrich, E.Petzinger & J.L.Boyer.....	43
Further characterization of hepatic transport systems in the liver of the little skate (<u>Raja erinacea</u>). G.Fricker, V.Dubost & K.Finsterwald.....	46
2-deoxyglucose uptake by flounder (<u>Pseudopleuronectes americanus</u>) erythrocytes. G.W.Booz & A.Kleinzeller.....	50
D-glucose transport by the red blood cells of the marine polychaete, <u>Glycera dibranchiata</u> . R.L.Preston, K.L.McQuade, S.J.Janssen & S.Lu.....	51
Effect of Hg ²⁺ on the transmembrane potential of red blood cells from <u>Glycera dibranchiata</u> . R.Wondergem & C.G.Sisson.....	54
Crab (<u>Cancer borealis</u>) urinary bladder accumulates the organic anion, fluorescein, in intracellular vesicles. D.S.Miller, P.M.Smith & J.B.Pritchard.....	56
Evidence for a Cl ⁻ /HCO ₃ ⁻ exchanger in the chloride cells of <u>Fundulus heteroclitus</u> . J.A.Zadunaisky, D.M.Roberts & E.Fisher.....	58
Impedance analysis reveals changes in apical and basolateral membrane resistance in shark (<u>Squalus acanthias</u>) rectal gland cultures. N.L.Kushman, J.D.Valentich & D.C.Dawson.....	60
Protein kinase C activates chloride secretion in cultured shark (<u>Squalus acanthias</u>) rectal gland epithelial cells. W.G.Feero & J.D.Valentich.....	63
Effect of chloride secretagogues on cyclic AMP formation in cultured shark (<u>Squalus acanthias</u>) rectal gland epithelial cells. P.H.Yancey, J.Ruble & J.D.Valentich.....	65
Evidence for a P-glycoprotein-like transporter in the apical plasma membranes of shark (<u>Squalus acanthias</u>) rectal gland epithelial cells. J.D.Valentich.....	67
Effect of calcium channel blockers on inhibition of chloride secretion in the shark rectal gland. P.Silva, R.J.Solomon, J.Landsberg, A.Hervieux, R.Emmonds & F.H.Epstein.....	69
Taurine transport in liver plasma membrane vesicles of the little skate (<u>Raja erinacea</u>). L.Wilmarth, N.Ballatori & J.L.Boyer.....	71

Organic and inorganic mercurial inhibition of taurine transport by the coelomocytes of the marine polychaete, <u>Glycera dibranchiata</u> . R.L.Preston, S.J.Janssen, S.Lu, K.L.McQuade & L.Beal.....	72
Hypotonic stress stimulates DIDS binding by erythrocytes of the little skate, <u>Raja erinacea</u> . K.Flanagan, M.Guertin & L.Goldstein.....	75
The effect of medium composition on the anisosmotic volume response of dogfish (<u>Squalus acanthias</u>) rectal gland cells. A.Kleinzeller, G.W.Booz & F.N.Ziyadeh.....	76
Determinants of regulatory volume decrease in rectal gland cells of <u>Squalus acanthias</u> . F.N.Ziyadeh & A.Kleinzeller.....	78
Calcium-control of flagellar motility in sea scallop (<u>Placopecten Magellanicus</u>) sperm. T.Otter & E.Hatch.....	80
Volume-activated, energy and sulfhydryl-dependent taurine transport in hepatocytes from the little skate (<u>Raja erinacea</u>). N.Ballatori, A.T.Truong, D.Jutte, J.Gardner & J.L.Boyer.....	83
Negative shift of cardiac Ca^{2+} channel inactivation by reducing external $[Na^+]$. G.Callewaert, A.Orkand, A.Chawla & M.Morad.....	84
Flash photolysis of caged compounds in cardiac myocytes. G.Callewaert, A.Chawla, L.Cleemann & M.Morad.....	87
Mechanisms of cadmium toxicity in <u>Raja erinacea</u> electric organ. J.Andrake, C.Sisson & O.Brown.....	91
Effect of cadmium on neurotransmitter control of shark rectal gland. P.Silva, R.J.Solomon, J.Landsberg, A.Hervieux, R.Emmonds & F.H.Epstein.....	94
Effect of heavy metals on hormonal activation of cultured shark (<u>Squalus acanthias</u>) rectal gland epithelial cells. J.D.Valentich.....	98
Intracellular cyclic GMP in cultured <u>Squalus acanthias</u> rectal gland epithelium: effects of atrial natriuretic peptide (ANP) and <u>Escherichia coli</u> heat stable enterotoxin (STa). M.P.Kennedy, J.D.Valentich, M.G.Currie, W.F.Oehlschlager & K.J.Karnaky, Jr.....	102
The renal and branchial responses to metabolic alkalosis and acidosis in the marine teleost, <u>Myoxocephalus octodecimspinosus</u> . T.H.Maren & A.Fine.....	104
Acid-base transfers in the long-horned sculpin (<u>Myoxocephalus octodecimspinosus</u>) following exposure to 20% seawater and low external chloride. J.B.Claiborne & E.Perry.....	107
Additional evidence for the presence of A_1 adenosine receptors in the ventral aorta of the dogfish shark (<u>Squalus acanthias</u>). D.H.Evans & E.Chipouras.....	109

Calcium and calmodulin sensitivity of permeabilized vascular smooth muscle of the ventral aorta of the dogfish shark (<u>Squalus acanthias</u>). D.H.Evans & E.Chipouras.....	110
Electrophoretic determination of interactions between calmodulin, Ca^{2+} , Cd^{2+} , and Ni^{2+} . A.J.Vomachka, D.H.Evans, E.Chipouras & T.Otter.....	112
Preliminary studies of the effects of cadmium and nickel on permeabilized vascular smooth muscle of the ventral aorta of the dogfish shark (<u>Squalus acanthias</u>): the role of calmodulin. D.H.Evans, E.Chipouras & A.J.Vomachka...	115
Cadmium blocks the inhibitory response to somatostatin in the perfused shark rectal gland. J.N.Forrest, Jr., D.Opdyke, C.Aller & G.G.Kelley.....	117
The uptake of Cd, Hg and Ca in skate (<u>Raja erinacea</u>) hepatocytes. Z.A. Shaikh, M.E.Blazka & M.Yoshida.....	119
The effects of adriamycin and cis-platin on glomerular protein metabolism. Studies on the Atlantic hagfish <u>Myxine glutinosa</u> . S.Kastner, L.M.Fels, S.Piippo, L.Emunds & H.Stolte.....	120
Predation on eggs of the little skate (<u>Raja erinacea</u>) in the Gulf of Maine. D.L.Cox & T.J.Koob.....	123

A C K N O W L E D G M E N T S

The Mount Desert Island Biological Laboratory is indebted to the National Institutes of Health for substantial support. Contributions to operating costs have greatly improved the efficiency of research activities. The individual research projects at the Laboratory are funded by various private and government agencies; all of these projects have benefited from NSF and NIH grants to the Laboratory.

The Laboratory also is indebted to the Lucille P. Markey Charitable Trust, The Pew Charitable Trusts, The Burroughs Wellcome Fund, Hearst Foundation, and the Maine Community Foundation for Blum-Halsey Scholars for their support of research fellowships for young investigators and students.
