

THE 2013 BULLETIN EDITORIAL COMMITTEE

Editors

**Dr. Alice R.A. Villalobos
Dr. James B. Claiborne**

Dr. Alice R.A. Villalobos, Chair

Dr. James B. Claiborne, Co-Chair

Dr. Suzie Currie

Dr. Susan L. Edwards

Dr. David H. Evans

Dr. Raymond P. Henry

Dr. David S. Miller

Dr. Robert L. Preston

**Published by the Mount Desert Biological Laboratory
July 2013**

REPORT TITLES

Ionic Regulation

Pfau, D.J., Morris, M.T., de Jonge, H.R., Forrest, J.N., Jr. Inhibition of adenylyl cyclase by somatostatin reduces chloride secretion in CNP stimulated cultured rectal gland epithelial cells of the spiny dogfish shark, *Squalus acanthias* 1

Van Kalmthout, J.A.M., Pfau, D.J., Verkman, A.S., Forrest, J.N., Jr. PPQ-102 is the most potent inhibitor of the CFTR chloride channel in the rectal gland of the shark, *Squalus acanthias* 3

Van Kalmthout, J.A.M., Pfau, D.J., Wu, X., Woolls, M. Young, L.H., Forrest, J.N., Jr. Identification of AMP-activated protein kinase (AMPK) in the shark rectal gland 5

Menendez, D., Edelstein, C., Van Kalmthout, J.A.M., Pfau, D.J., Forrest, J.N., Jr. The chloride secretory response to hypoxia in the rectal gland of the spiny dogfish, *Squalus acanthias*: Is 5'AMP Kinase (AMPK) involved? 7

Comparative Biochemistry

Silva, P., Spokes, K.C., Kinne, R. Open reading frame of glycogen phosphorylase in the rectal gland of *Squalus acanthias* 9

Hanke, N., Ottmann, K., Pauli, C., Teng, B., Tossidou, I., Schroder, P., Staggs, L., Korstanje, R., Haller, H., Schiffer, M. Aspartoacylase (ASPA) inactivation leads to leakiness of the glomerular filtration barrier in zebrafish (*Danio rerio*) 12

Comparative Physiology

Silva, P., Spokes, K.C., Kinne, R. The intracellular concentration of urea in the rectal gland of *Squalus acanthias* 15

Burnette, A., McCormick, A. Lewis, J.M. Oxidative damage and mechanisms of antioxidant defense in the red blood cells of longhorn sculpin (*Myoxocephalus octodecemspinosus*) 18

Cai, S.Y., Pierik, A., Boyer, J.L. Characterization of a bile salt transport system in isolated hepatocytes from adult sea lamprey (*Petromyzon marinus*) 20

Hanke, N., Staggs, L.B., Schroder, P., Litteral, J., Fleig, J., Kaufeld, J., Pauli, C., Niggemann, P., Frowerk, M., Paschke, S., Haller, H., Schiffer, M. A rapid gene screening system to identify novel mechanisms for development of chronic kidney disease in zebrafish (*Danio rerio*) 22

Molecular Toxicology

Preston, R.L., Oster, R., Marshall, A.V. The presence of the cyanide detoxification enzyme, rhodanese, in *Fundulus heteroclitus* embryos 25

Bernd, A., Nickel, S., Miller, D.S., Fricker, G., Mahringer, A. Aryl hydrocarbon receptor (AhR)- and nuclear factor E2-related factor-2 (Nrf2)-mediated regulation, of the multidrug resistance-associated protein 4 (Mrp4) transport activity in killifish (*Fundulus heteroclitus*) renal proximal tubules 28

Nickel, S., Bernd, A., Miller, D.S., Fricker, G., Mahringer, A. Bisphenol-A modulates function of ABC transporters in killifish (*Fundulus heteroclitus*) renal proximal tubules30

Cell Biology

Williams, L.M., Beacham, G.M., Doherty, E.M., Morris, R.M. The differentiation of cilia subtypes during early stages of sea urchin (*Lytechinus pictus*) embryogenesis 31

Barkhouse, L.M., Morris, R.M., Tomich, J.M., Conrad, G.W. Channel-forming peptide allows diffusion of riboflavin and dextran into the sea urchin embryo blastocoel and inhibits blastula spinning and sperm movement..... 32

Ecology

Fox, E., White, S., Sato, G., Miller, M., Kidder, G., Hauck, J., Disney, J. Effects of slow-release nutrients on eelgrass (*Zostera marina* L.) morphometrics and water quality..... 34

Kidder, G., Disney, J. A comparison of transplant methods for eelgrass (*Zostera marina* L.) restoration in Frenchman Bay 37
