REPORT TITLES

Ionic Regulation

Neuman, R.I., Pfau, D.J., Menendez, D., Peters, K., Frizzell, R.A., Young, L.H., Forrest, J.N., Jr. 5' AMP-activated protein kinase regulates chloride secretion and is phosphorylated in the dogfish shark (*Squalus acanthias*) rectal gland under hypoxic conditions and co-immunoprecipitates with CFTR 1

Pfau, D.J., Poeschla, M., Poeschla, E., Forrest, J.N., Jr. Strategies to establish a continuous cell line of the shark rectal gland of *Squalus acanthias* 3

Comparative Biochemistry

Cai, S.Y., Lionarons, D.A., Boyer, J.L. Characterization of a bile salt transport system in isolated hepatocytes from adult sea lamprey (*Petromyzon marinus*) 4

Kinne, R., Silva, A., Silva, M., Spokes, K.C., Silva, P. Lack of evidence that endogenous fatty acids can support chloride secretion in the rectal gland of *Squalus acanthias* 6

Silva, P., Spokes, K.C., Kinne, R. Identification of mitochondrial enzyme mRNA in the rectal gland of *Squalus acanthias* 8

Comparative Physiology

Wright, P., Lawrence, M., Currie, S., Wood, C., Edwards, S. Rhesus glycoproteins in dogfish shark (*Squalus acanthias*) in response to hypo-osmotic stress 11

Cutler, C.P., Turner, P.C. Successful knockdown of aquaporin 1 (AQP1) protein expression in American eel (*Anguilla rostrata*) gastrointestinal tract using direct-infusions of vivo-morpholino ... 12

Lupica-Nowlin, J.R., Ruth, B., Lutton, B.V. Novel immune processing mechanism in the Leydig organ of the skate, *Leucoraja erinacea* 14

Hersh, T., King, B., Lutton, B.V. Novel bioinformatics tools for analysis of gene expression in the skate, *Leucoraja erinacea* 16

Silva, A., Silva, M., Spokes, K.C., Kinne, R., Silva, P. Water content of different tissues of *Squalus acanthias* 19

Cell Biology

Sholi, A.L., Abbott, Z.D., Morris, R.L. Metal ion effects on ciliary differentiation on *Lytechinus pictus* and *Echinarachnius parma* embryos 20

Ecology

Ryan, C.N., Mayer, G. Sediment microbial community profiles along a metal-laden leachate gradient	21
Kidder, G.W., Bushmann, P., Disney, J.E. Restoration by seeding in <i>Zostera marina</i> - a progress report	22
Bailey, B., Bailey, J., Kidder, G.W., Disney, J.E. A citizen science approach to mapping eelgrass (<i>Zostera marina</i> L.) loss in Maine	25
Disney, J.E., Thorburn, P., Kidder, G.W. Possible causes of eelgrass (<i>Zostera marina</i> L.) loss in Frenchman Bay, Maine	26

Physiological Ecology

Marshall, A.V., Preston, R.L. The fate of <i>Fundulus heteroclitus</i> embryos ingested by adult killifish	29
